

Dental X-Ray Analysis Report

Generated: June 18, 2025

Summary

Oral Health Score: 60/100 - Fair

Full X-Ray Analysis

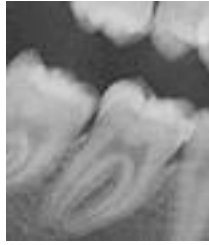

Detailed Findings

| Condition | Number of Teeth | Severity |
|-----------|-----------------|----------|
| Healthy | 1 | Low |
| Impacted | 2 | Medium |
| Caries | 2 | Medium |

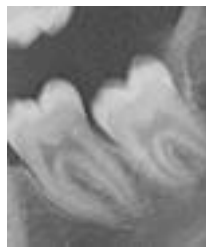

Healthy (1 teeth)

Recommendation: No treatment needed. Continue with regular brushing, flossing, and biannual dental checkups.

Impacted (2 teeth)

Recommendation: Impacted tooth detected. Consult with an oral surgeon about extraction or monitoring.

Caries (2 teeth)

Recommendation: Early cavity detected. Treatment options include fluoride treatments or small fillings. Schedule a follow-up appointment soon.

Recommendations

- Schedule a follow-up with your dentist to discuss these findings.
- Healthy: No treatment needed. Continue with regular brushing, flossing, and biannual dental checkups.
- Impacted: Impacted tooth detected. Consult with an oral surgeon about extraction or monitoring.
- Caries: Early cavity detected. Treatment options include fluoride treatments or small fillings. Schedule a follow-up appointment soon.
- Maintain good oral hygiene: Brush twice daily, floss daily, and use mouthwash.
- Reduce sugar intake to prevent further decay.
