

# Dental X-Ray Analysis Report

Generated: June 18, 2025

## Summary

Oral Health Score: 68/100 - Fair

## Full X-Ray Analysis

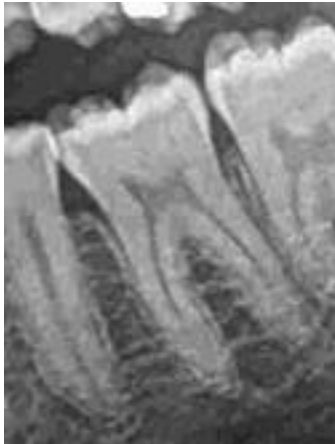

## Detailed Findings

Condition	Number of Teeth	Severity
Healthy	4	Low
Caries	4	Medium
BDC/BDR	1	Medium

Impacted	2	Medium
----------	---	--------

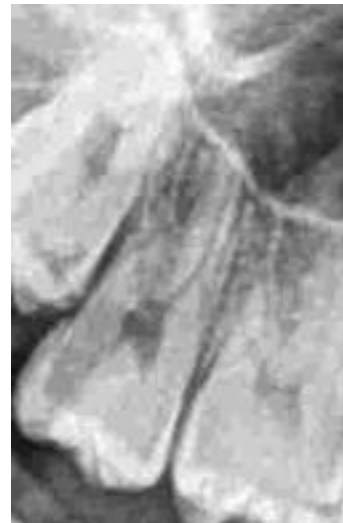

### ***Healthy (4 teeth)***

Recommendation: No treatment needed. Continue with regular brushing, flossing, and biannual dental checkups.

### ***Caries (4 teeth)***

Recommendation: Early cavity detected. Treatment options include fluoride treatments or small fillings. Schedule a follow-up appointment soon.

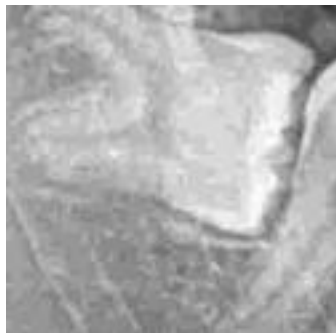

***BDC/BDR (1 teeth)***

Recommendation: Bone defect or resorption detected. Additional imaging and specialist consultation recommended.

***Impacted (2 teeth)***

Recommendation: Impacted tooth detected. Consult with an oral surgeon about extraction or monitoring.

## Recommendations

- Schedule a follow-up with your dentist to discuss these findings.
- Healthy: No treatment needed. Continue with regular brushing, flossing, and biannual dental checkups.
- Caries: Early cavity detected. Treatment options include fluoride treatments or small fillings. Schedule a follow-up appointment soon.
- BDC/BDR: Bone defect or resorption detected. Additional imaging and specialist consultation recommended.
- Impacted: Impacted tooth detected. Consult with an oral surgeon about extraction or monitoring.
- Maintain good oral hygiene: Brush twice daily, floss daily, and use mouthwash.
- Reduce sugar intake to prevent further decay.
